

mcnally_logo_4C.ai 10/24/2008 2:34:51 AM

The graphic features the McNally electronics logo on a black background. The logo consists of three vertical orange bars of varying heights on the left, followed by three horizontal light blue bars of varying lengths on the right. Below these bars, the word "McNally" is written in a large, bold, orange sans-serif font, and the word "electronics" is written below it in a smaller, light blue sans-serif font.

To the right of the logo is a detailed illustration of a black circular gauge with a white border. The gauge has a white needle pointing to approximately 25 on a scale from 0 to 80. The scale is labeled with "0", "20", "40", "60", and "80". The text "Boost PSI" is printed in white above the needle. Below the needle, the text "EGT" is printed, and a digital display shows the number "79.8". The gauge is shown with a yellow-green shadow behind it.
